**FOR IMMEDIATE RELEASE
MAY 8, 2017**

BLOOMINGTON, Ind. – Television personality, author, and Food Network star Alton Brown will present his live show, *Alton Brown Live: Eat Your Science*, at Indiana University Auditorium on November 14, 2017 at 7:00 p.m. Tickets go on sale Thursday, May 11 at 10 a.m.

Alton Brown played in over 100 cities with more than 150,000 fans in attendance with his *Edible Inevitable Tour*, and is credited with creating a new form of entertainment: the live culinary variety show. In his newest on-stage event, *Eat Your Science*, Brown says fans can expect “all-new everything—including songs, new comedy, new puppets, and bigger (and better potentially dangerous) food demonstrations.” Brown has designed the event to mix together science, music, and food into two hours of entertainment. “Plus, you’ll see things I’ve never been allowed to do on TV.” He promises “plenty of new therapy-inducing opportunities during our audience participation segments. I don’t want to give too much away, but this time we’re going to play a little game.”

Although Alton Brown is best known as the creator, writer, and host of *Good Eats*, which ran for 14 years on Food Network, he also hosted *Cutthroat Kitchen* and served as the culinary commentator on *Iron Chef America*. He has also written eight books on food and cooking (including his newest, *EveryDayCook*).
